Plagues of the Past and Present

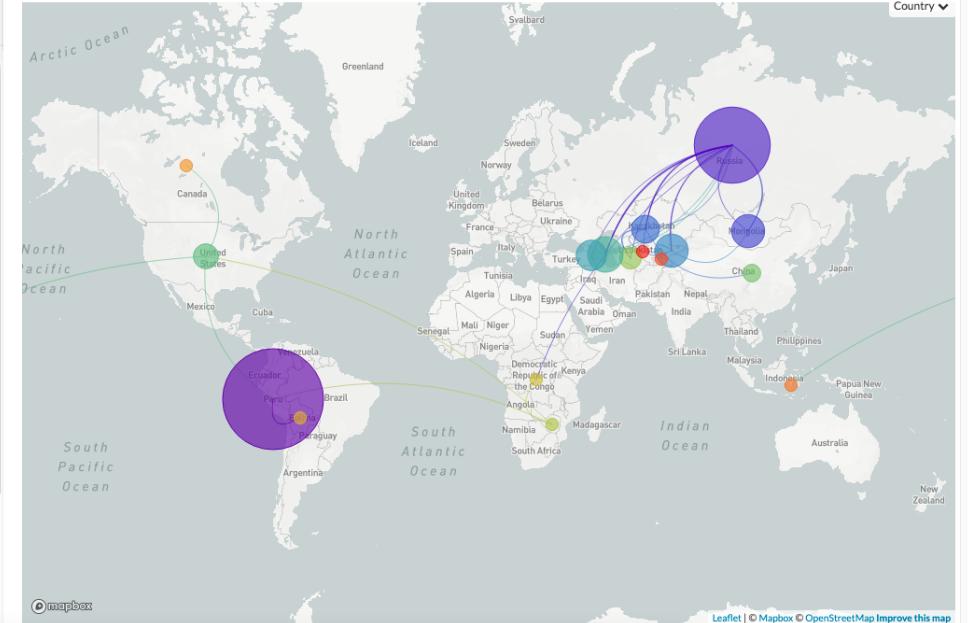

Author: Katherine Eaton

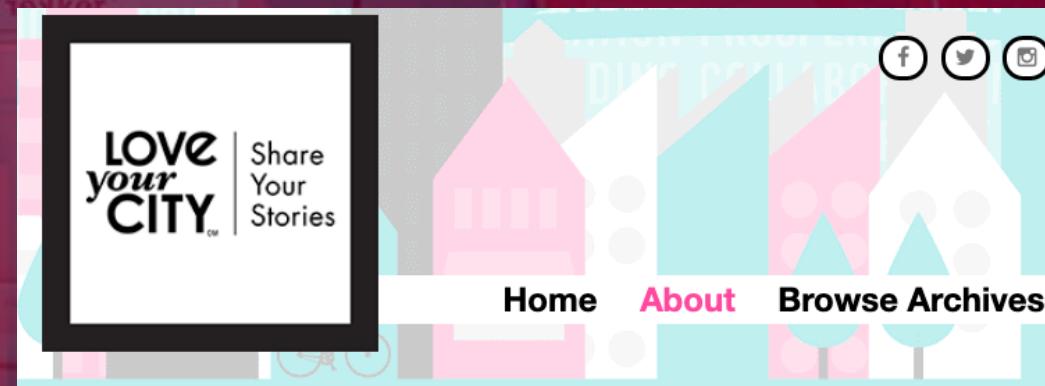

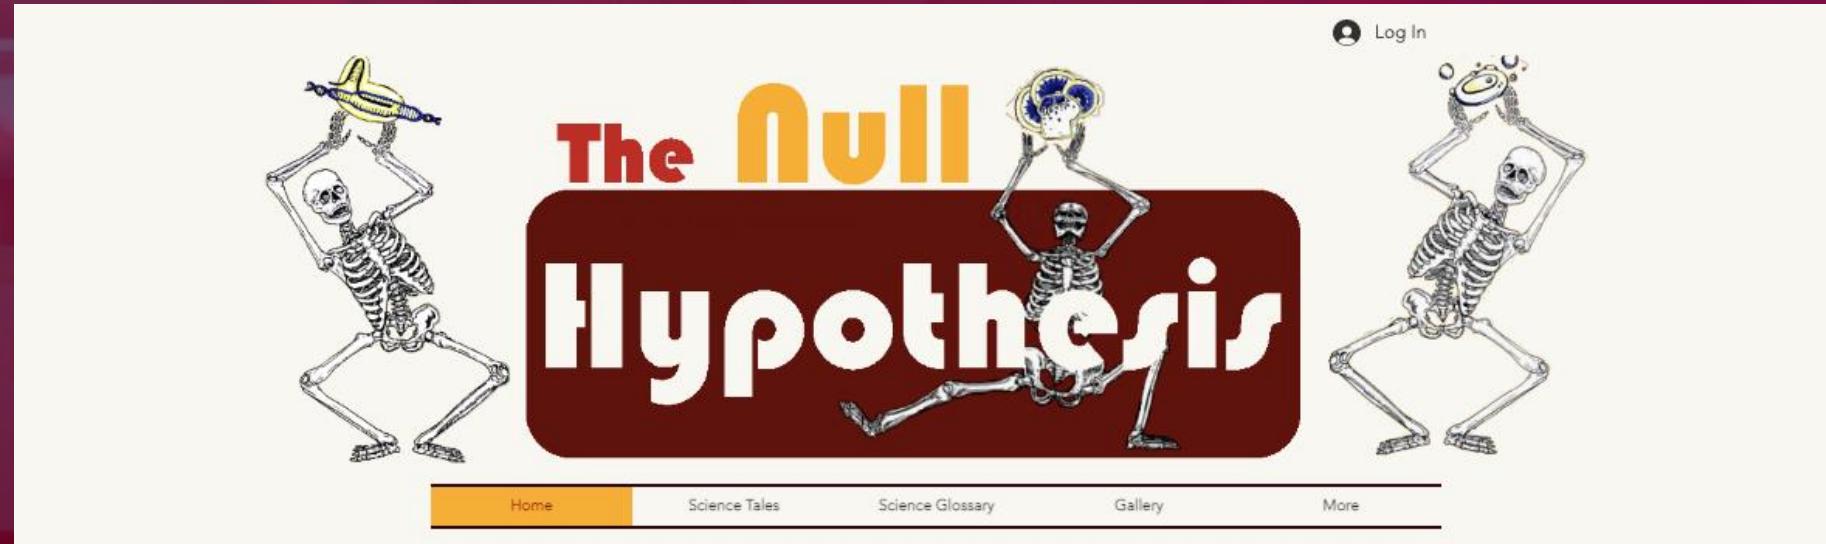

'The Plague' is a mystifying and devastating disease that has re-emerged multiple times throughout history. From the Plague of Justinian (6th century), through the centuries long Black Death (14th-19th century), to the Madagascar Plague Outbreak (2017), this infectious disease has resulted in exceptional mortality and societal upheaval.

While our knowledge of the plague has grown tremendously, there are many outstanding questions: 1. did the ancient pandemics originate? 2. might dormant plague zones reactivate? 3. has the plague gone extinct in some regions? 4. does a community respond to losing a large portion of its population?

The mysteries of the plague bring together researchers from a wide variety of disciplines from art history to microbiology. Each field contributes a unique perspective to the

We need your help.
Today.

Climate change is a **global problem** but to understand it we need to start **locally**. Here in Hamilton, people across the city are **taking action against climate change** in creative ways and we want to know about it. Some people are noticing the **impacts of climate change** and we want to know about that too. Help us put climate change **on the map** by participating in LEARN-CC.

MCMMASTER MICROBOTANICAL RESEARCH DATABASE

Search Guide Browse Items Browse Collections

Welcome to the McMaster Paleoethnobotanical Research Database. This database is run by graduate students from the Department of Anthropology at McMaster University and designed by PhD candidate Shalen Prado.

This database is a collection of microbotanical specimens from modern and archaeological contexts and is designed to evolve alongside research projects at the McMaster Paleoethnobotanical research facility. You are able to browse by type of specimen (i.e. starch grain or phytolith) or you can search for a particular species by using the search bar.

If you have any questions please contact Shalen Prado at prados@mcmaster.ca

FEATURED ITEM
Hordeum vulgare (var. Bere)
 Articulated elongate echinate long cells and epidermal skeleton sheets - Diagnostic

E L O I S A. 19

to be your wife without the consent of my father, but I will never marry another without your consent; of this I give you my word, which, whatever happens, I will keep sacred; nor is there a power on earth can make me break my promise. Be not, therefore, disquieted at what may befall me in your absence. Go, my dear friend, pursue, under the auspices of the most tender love, a defining worthy to crown your merit: mine is in your hands, as much as it is in my power to commit it, and never shall it be altered but with your consent.

LETTER LXXVII.

To ELOISA.

O qual fiamma di gloria d'onore,
Scorrer sento per tutte le fene,
Alma grande parlando conto!

ELOISA, let me breath a moment,—you make me shudder, my blood boils, my heart pants; your letter glows with that sacred love of virtue that fires your breasts, and communicates its celestial flame to the innocent recesses of mine. But why so many exhortations, where you should have laid, on me your commands? do you think I can so far forget myself as to want arguments to excite me to act justly? at least, I can want to have them urged by you, whose injunctions alone I should fly to obey. Can you be ignorant that I ever will be what you please to have me? and that I could even act unjustly before I could disobey you? yes, I

A circular banner for a DASH event. It features a white circle containing the word "DASH" and a larger dark purple circle containing text about the event: "October 3 | 4:30-6:30pm Virtual Workshop Machine Learning with R K-means Clustering". Below this is the URL "u.mcmaster.ca/scds-events". The background of the banner shows a robotic hand interacting with a glowing yellow network of points. The bottom right corner contains the SCDS logo and the words "Library" and "McMaster University".

The homepage of the Hamilton Centre for Civic Inclusion (HCCI). The header includes the HCCI logo and navigation links for "ABOUT US", "OUR TEAM", "PROGRAMS", "ORGANIZATIONAL MENTORSHIP", "NEWS & UPDATES", "CONTACT", and "DONATE". A large red section on the left features the text "COMMUNITY ONLINE HATE REPORTING". To the right is a photograph of a person using a laptop and a smartphone. Below the image is a detailed description of the project's purpose and development.
